OUR PRODUCT RANGE

SUCTION STRAINERS

Complete range of suction strainers from ½" to 4" BSP consisting of 150 micron SS mesh which can be Cleaned.Metal Parts AL,SS or plated steel.

FILTER FABRICS

All types of woven/nonwoven viscose,PP spun bonded and spunless fabric for grinding coolant, honing oil,wash water and lapping oil filter on band type and compact band filter unit available in all Std. width in 100 Mtr. roll form.Rating 5 to 100 micron.

PORTABLE FILTERS UNIT

Multipurpose heavy duty portable filter unit in MS,SS construction consisting of one filter housing,gear pump, 1 HP motor,Electrical switch board and other accessories installed on movable trolley having flow capacity of 50 and 30 LPM with 5 to 50 micron of filter element.Magnetic cartridge can be added as a additional option to remove magnetic dirt.

FILTER HOUSING

We design and manufacture simplex/Duplex and jacketed type filter housing in MS/CS,SS 304 construction having capacity from 50 to 1500 LPM We also supply polypropylene,polycarbonate molded filter housing suitable for drinking water in 10",20"long and having ½" to 1.5" inlet/outlet connection.

FILTER BAGS

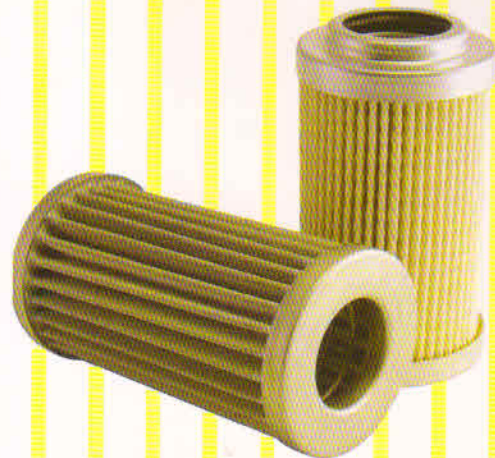

Filter bags for Oil,Air,Paints and wash water filtration consist of nylon, PE felt,Polypropylene,HDPE,Nomex and Ryton (for high Tem) filter media in single and multilayered with antistatic coating as per required size.

OUR PRODUCT RANGE

LIQUID FILTERS

Filters for Coolant, wash water, ETP water, consisting of SS mesh, Synthetic woven, non woven and glass fiber media. Rating 5 to 500 micron. Metal Parts plated steels, SS.

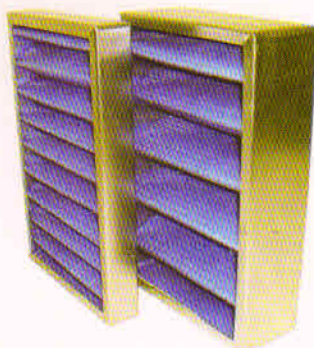

OIL FILTERS

Filters for Hydraulics oil, lube oil, White Spirit, cutting oil and many type of solvent consisting of Resin impregnated paper, glass fiber media SS mesh media, Rating 1-50 micron Metal parts plated steel, SS 304, 316 and AL. We also manufacture IMPORT SUBSTITUTE filters to PALL HYDAC, PARKAR, REXROTH etc.

AIR FILTERS

Air filters for compressor, Vacuum-Loader, Shot blasting, machine and paint as per required size and air flow. Consist of Resin bonded paper, PE felt, PP, HDPE woven, Nordic media and SS mesh as per application, Rating 5 to 300 micron Metal parts plated steel, SS 304.

AIR PANEL FILTERS

Air panel filters for Air Handling unit, Blower, Clean room Systems, Electric panel board and paint booth. Filter media HDPE woven, PP, PE felt, GI/SS mesh. Rating 5 to 500 Micron. It is available in all std. size depending on air flow cmh/cfm in GI or AL frame.

SPECIALITY FILTERS

- Yarn wound, PP Spun Bonded, Resin bonded and melt blown filters for drinking water and various solvent in 10" to 40" long. Rating 1 to 20 micron.
- R O memberane, carbon block filters and water softening plant for the alkaline/acidic water to remove 98% TDS and give crystal clear water. Model are available from 100 LPH to 20000 LPH industrial plant.
- Electro Static oil filter unit in 25, 50 and 100 liter and their Dust collector paper set to remove oil contamination below 1 micron to achieve NAS value.
- Ceramic Filters, sintered bronze filters and filter housing to remove moisture from compressor Air and Air Dryer unit. Wire cut EDM machine filter for oil and water.
- Membrane filter in 47 and 25 Diameter rating 45 micron to 5 micron in cellulose nitrate for laboratories analysis.
- Rollomatics ceiling filter for air and paint arrester media in paint booth. HI-loft media and filter frame on electrical panel board.
- Air oil separator, Mist filters, filter media for Air-moisture arrester, insert for Y type Strainer and filter tray for SS and MS burr collection.
- Spinon fliters : Tank top fitted on line and Pressure line spinon fliter for oil and coolant.

OTHER PRODUCTS

- Compact band and Gravity band filter unit of filter fabric in all SS or MS construction for coolant and oil filtration as per required flow.
- Air receiver tank for air compressor in MS construction as per required flow and volume of air.
- Glycol pressure feed container on AL die- casting machine with pneumatics stirrer.
- Manufacturing and servicing of Telescopic cover, Rollways covers, Bellow Covers, Apron covers and way- wiper in all types of CNC Machines.
